WORK EXPERIENCE

Baker Hughes   **India**
Software Engineer   *Sep'23 – Present*
- Relocated from Ireland to India, taking on leadership for 1 project and consulting responsibilities for 3
- Led product release and drove technical delivery across 4 projects in 2 years, contributing to features, PDRs, & SRS
- Standardized 10+ hygrometry algorithms and created reusable documentation for future product development
- Spearheading UI/UX design for a state-of-the-art hygrometer, leveraging TouchGFX & C to deliver a modern, highly interactive UI
- Authored 4 design records in 1 year, spanning diverse topics including property algorithms to image conversion scripts

Baker Hughes   **Ireland**
Software Engineer   *Aug'22 – Aug'23*
- Joined as a Graduate Software Engineer and was rapidly promoted to SWE 1 within 5 months
- Utilized Figma to design and prototype user interfaces, developed wireframes, interactive prototypes, and detailed user workflows
- Developed a Windows application simulator for rapid prototyping - resulted in early user feedback driving usability
- Created the first icon-based GUI for the product line, significantly improved user experience & reduced user error by 30%

Ericsson   **India**
AI Intern   *Jun'21 – Aug'21*
- Implemented a clustering-based query classifier to categorize internal IT requests, enabling efficient routing and resolution of issues
- Implemented NLP preprocessing, TF-IDF vectorization (Scikit-learn & NLTK), followed by k-means clustering for query classification

EDUCATION

Trinity College, Dublin   **Ireland**
BAI Computers and Electronics Engineering   *2018 –2022*
- **Activities:** Indian Society, Formula Trinity, Voluntary Tuition Program
- Group project ranked Top 5 in class, advanced to EU competition. Developed a sustainable water solution for water-scarce countries

KEY PROJECTS

HygroPro XP - Moisture Analyzer   **India**
Lead Engineer   *Jan'24 - Oct'24*
- Assumed project leadership and successfully delivered 2 major releases (March and October) after the previous lead engineer's departure
- Led a team of 3 developers, delivered 10 high-priority features and resolved 20+ bugs in the October release
- Facilitated design verification reviews, ensuring adherence to industry standards (including MISRA) and high-quality software
- Improved hygrometry algorithm accuracy from 10% to 3% using a Python simulator, tested 20+ algorithms, and resolved 4 defects
- Improved code modularity and application reliability by refactoring a monolithic 6000-line file, reducing its size by 33%

XMTCpro: Binary Gas Analyzer   **Ireland, India**
Consulting Engineer   *Aug'22 – Sep'24*
- Designed and developed the complete UI/UX, encompassing 17 distinct menu types and 12 core features
- Partnered with product and technology teams to develop features & workflows focused on minimizing user errors
- Resolved 70+ bugs, including 40 critical issues within a focused 2-month period, significantly improving software stability
- Led cybersecurity reviews, ensuring compliance for product launch, and contributed to detailed design reviews
- Oversaw static analysis for MISRA C compliance and collaborated with an external agency to achieve SIL 2 certification

SKILLS

Programming: Python, C, C++, SQL, XML, Git, Matlab, TeX, Static Analysis, Git Workflows
Technologies: IAR, Parasoft, PostgreSQL, Linux, SPSS, Protege, Figma, Touch GFX
